

These days creating added value involves more than just an excellent product profile. You also need a partner who understands your business and your products, and who can develop new production techniques, optimise processes and design customised solutions.

A partner who is able to contribute in a real way to creating durable value: Henkel is the world leader in the adhesives, sealants and surface treatment markets. Drawing upon our unique and complete product portfolio, you benefit from our experience and the guarantee of the highest level of process reliability. **Bonderite E-CO** devices satisfy specific industry and maintenance requirements.

**Bonderite E-CO DMC** is a data management system device that can be used to measure an unlimited number of different, independent variables, including:

1. Display data from Lineguard 97, BONDERITE E-CO ST4 & analog transmitters
2. Data Management
3. Dosing Pump Management
4. Levels Management
5. Alarm Management
6. Multilingual Interface
7. Accessible via Internet (LAN, WAN, SIM)
8. Automatic e-mail in case of alarms
9. Manual Values from Customer
10. Tailored Access Customer & Henkel
11. Data Base completely FREE (Internal)
12. Full Service Supplier (H. & S.)
13. Accessible via Smartphone & Tablet
14. Completely Integrable with existing devices and Signals of the Customer.

It's also possible, in a special window, to put an analysis manual data and correlate it to an output to make automatically dosages.

## TECHNICAL CHARACTERISTICS

**Size:** 400 mm / 600 mm / 250 mm  
**Weight:** 12,5 Kg

**Point I/O:** n°1 for Input signal  
n°1 for output signal

**Data tracking** Internal Data Storage System  
Numerical Report  
Graphic Report  
Consumption Report  
Alert Mail

**Connections** Local  
LAN  
WAN / INTERNET  
SIM Card  
Smartphone  
Tablet

**BOX**  
AISI 304 steel housing to meet IP65 standard.

**OPERATING ENVIRONMENT**  
0°C ÷ 40°C (32°F ÷ 104°F)  
0 ÷ 95% (no condensation) relative humidity
